CONTENTS

COMMUNICATIONS

240 Glucagon regulation of protein phosphorylation. Identification of acetyl coenzyme A carboxylase as a substrate.
Lee A. Witters, Edward M. Kowaloff, and Joseph Acrux

249 Purification of the mannitol-specific Enzyme II of the Escherichia coli phosphoenolpyruvate:sugar phosphotransferase system.

253 Effect of hydroxyurea on T4 ribonucleotide reductase.
Ove Berglund and Britt-Marie Sjöberg

255 Solubilization and reconstitution of dopamine-sensitive adenylate cyclase from bovine caudate nucleus.
F. Michael Hoffmann

259 Inhibition of fructose-1,6-bisphosphatase by the pho-
teric adenylate cyclase from bovine caudate nucleus.
Escherichia coli phosphoenolpyruvate:sugar phospho-
transferase system.

268 Purification of the mannitol-specific Enzyme II of the Escherichia coli phosphoenolpyruvate:sugar phosphotransferase system.

265 Interaction of the inhibitory and tropomyosin-binding sub-
units of troponin subunits. The interaction between the inhibitory and tropomyosin-binding sub-
units.
Joseph Horwitz, Belinda Bullard, and Dan Mercola

270 Ribulose-1,5-bisphosphate carboxylase. Evidence in support of the existence of distinct CO2 activator and CO2 substrate sites.
Henry M. Miziorko

273 Participation of one isozyme of cytosolic glycero-
phosphate dehydrogenase in the adipose conversion of 3T3 cells.
Leigh S. Wise and Howard Green

276 Effect of hypophysectomy and growth hormone treatment on albumin mRNA levels in the rat liver.
George H. Keller and John M. Taylor

279 Affinity labeling of alanine aminotransferase by 3-
chloro-L-alanine.
Yoshimasa Morino, Hirohisa Kojima, and Samio Tanase

286 Occurrence and significance of oxygen exchange re-
actions catalyzed by mitochondrial adenine triphos-
phate preparations.
Glenda L. Choate, R. Lee Hutton, and Paul D. Boyer

291 Neurophysin-lipid complexes. Characterization of lipi-
ccontaining neurophysin from rat posterior pitu-
tary, delipidation, and reaggregation.
T. K. Audhya and Roderich Walter

299 Multiple molecular forms of catechol-O-methyltrans-
ferase. Evidence for two distinct forms, and their pu-
rification and physical characterization.
Martin Moo-Ok Huh and Arnold J. Friedhoff

309 Polymavirus and cyclic AMP-mediated control of dihydrololate reductase mRNA abundance in metho-
trexate-resistant mouse fibroblastic lines.
Rodney E. Kellen, Vera B. Morhenn, Eva A. Pfendt,
Frederick W. Alt, and Robert T. Schimke

319 Mechanism of the stimulation of Ca2+-dependent ATPase of cardiac sarcolemmal reticulum by ade-
osine 3':5'-monophosphate-dependent protein kinase.
Role of the 22,000-dalton protein.
Michihiko Tada, Fumio Okhori, Makoto Yamada, and Hiroshi Abe

Full Instructions to Authors will be found in THE JOURNAL, 254, 1 (1979), and reprints may be obtained on request from the editorial office.
447 Acetate kinase from *Veillonella alcalescens*. Purification and physical properties.  
*Michael J. Griffith and Jonathan S. Nishimura*

447 Selenium-dependent clostridial glycine reductase. Purification and characterization of the two membrane-associated protein components.  
*Hidehiko Tanaka and Theresa C. Stadtman*

453 Biological effects of cesalin, an anti-tumor protein, on cultured mammalian cells.  
*James Eting and Rex Montgomery*

459 Translation of capped and uncapped vesicular stomatitis virus and reovirus mRNAs. Sensitivity to m7GpppAm and ionic conditions.  
*John E. Bergmann and Harvey F. Lodish*

469 Islet-activating protein. Enhanced insulin secretion and cyclic AMP accumulation in pancreatic islets due to activation of native calcium ionophores.  
*Toshiaki Katado and Michio Uy*

480 The amino acid sequence of dihydrofolate reductase from the mouse lymphoma L1210.  
*David Stone, Sabina J. Paterson, John H. Raper, and Anthony W. Phillips*

489 Primary structure of human C-reactive protein.  
*Eduardo B. Oliveira, Emil C. Gotschlich, and Teh-yung Liu*

503 In vitro phosphorylation of bovine adrenal tyrosine hydroxylase by adenosine 3':5'-monophosphate-dependent protein kinase.  
*Takashi Yamama and Hitoshi Fujisawa*

508 Isolation and characterization of single chain bovine factor V.  
*Michael E. Nesheim, Kurt H. Myrmel, Lyndon Hibbard, and Kenneth G. Mann*

518 The monomeric glutamyl-tRNA synthetase of *Escherichia coli*. Purification and relation between its structural and catalytic properties.  
*Daniel Kern, Serge Potter, Yves Boulanger, and Jacques Lapointe*

525 Cell-free synthesis of rat parotid preamylase.  
*Marian Gorecki and Elisha P. Zeelon*

NOTE: EFFECTIVE JANUARY 1, 1978, THE MANUSCRIPT HANDLING CHARGE IS NO LONGER REQUIRED.

THE JOURNAL OF BIOLOGICAL CHEMISTRY
GENERAL INFORMATION
MANUSCRIPT SUBMISSION AND PAGE CHARGES

Submit manuscripts of full papers in duplicate and Communications in triplicate to  
Editor, The Journal of Biological Chemistry  
9650 Rockville Pike  
Bethesda, Maryland 20014, U.S.A.

Accepted manuscripts will be published with the implicit understanding that the authors will pay a charge of $15 per published page (miniprint supplements and repository items excluded). Under exceptional circumstances, when no source of grant or other support exists, the authors of accepted manuscripts may apply for a grant-in-aid to Chairman, Publications Committee, American Society of Biological Chemists, Inc., 9650 Rockville Pike, Bethesda, Maryland 20014.

Queries on matters of general editorial policy, requests for reprints of the “Instructions to Authors,” or of the “Editorial Policy and Practices,” or for permission to reproduce any part of a previously published article should be directed to the Journal Editorial Office in Bethesda. (Telephone 301-530-7150).

Address all correspondence relative to subscriptions, subscription fulfillment, and orders for back copies to: THE JOURNAL OF BIOLOGICAL CHEMISTRY, 428 EAST PRESTON STREET, BALTIMORE, MARYLAND 21202, U.S.A. Requests for termination of paid and duly entered subscriptions will be honored with proportional refunds less a $10 cancellation charge.

Published semimonthly by the American Society of Biological Chemists, Inc. Annual volume: $200, United States; $220, other countries. Single copy $8.90. Subscriptions are entered on a calendar year basis only. Special subscription rates are available to members, graduate students, and postdoctoral fellows for personal use only. Qualifying forms are available from the Bethesda Office. Second class postage paid at Baltimore, Maryland 21202, U.S.A., and at additional mailing offices.
