Online Edition:

- All prices are in U.S. Dollars.
- All subscription periods are a calendar year (January 1, 2007 - December 31, 2007).
- Payment in full must accompany each order.

Non-Member Individuals

- All prices are for a single, non-member personal subscription.
- **Who Can Access the Journal:** A non-member online subscription is an individual license and is for your personal use only. Sharing your Username and Password is not permitted. If lab members, colleagues, or students require access, please have your institution's librarian/information specialist contact the ASBMB Subscriptions Office at subscriptions@asbmb.org or +1-205-995-1567 about purchasing an institutional subscription.
- **Activation Process:** Online access is provided by Username and Password. Once your order and payment are received and processed by ASBMB, you will receive an e-mail message directing you to activate your online subscription(s) and assign yourself a Username and Password.
- **Access to Back Issues:** A non-member online subscription includes access to current year plus all available back issues online. Upon cancellation, access will be provided for years subscribed.

Institutions

- All prices are for a single site/location. If your institution has multiple sites, each site must purchase a separate subscription. For multi-site institutions (with more than 5 sites) and consortia, contact the ASBMB Subscriptions Office at subscriptions@asbmb.org or +1-301-634-7388 for a price quote.
- **Who Can Access the Journal:** An institutional, online subscription allows unlimited simultaneous Internet access by only "authorized users" at one "site" location, and does not permit remote campuses, remote sites, consortia, or other forms of subscription sharing. **If your institution has multiple sites, each site must purchase a separate subscription.**
- **Definition of an "authorized user":** An "authorized user" is defined as employees, faculty, staff, students, and consultants of the one subscribing location, whether on a permanent, temporary, or contract basis, who are permitted to access the Secure Network from within the one subscribing location [or from such other places where Authorized Users undertake their work for the one subscribing location (including but not limited to Authorized Users' offices and homes)] and who have been issued by the one subscribing location with a password or other authentication.
- **Definition of a "site":** A "site" is defined as an organizational unit, and may be academic or nonacademic. For organizations located in more than one city, each office is considered a different site, and requires a separate subscription. For organizations within the same city that are administered independently, each office is considered a different site, and requires a separate subscription. For example, each campus in the State University of New York system is a different site, each branch or office of GlaxoSmithKline is a different site, each institute of the National Institutes of Health is a different site.
- **Activation Process:** Online access is provided by IP address. Once your payment is received and processed by ASBMB, you will receive an e-mail message directing you to activate your online subscription(s). As part of the activation process, you will be asked to provide valid IP addresses for the authorized users at the subscribing "site" only.
- **Access to Back Issues:** An institutional, online subscription includes access to current year plus all available back issues. Upon cancellation, access will be provided for years subscribed.
