Additions and Corrections

Protein farnesyltransferase from Trypanosoma brucei. A heterodimer of 61- and 65-kDa subunits as a new target for antiparasite therapeutics.

Kohei Yokoyama, Patty Trobridge, Frederick S. Buckner, Wesley C. Van Voorhis, Kenneth D. Stuart, and Michael H. Gelb

Page 26501: Fig. 5 is incorrect. The correct figure is shown below.

![Corrected Figure 5](image)

Fig. 5. Structures of the CaaX mimetic inhibitors of PFT used in this study.

Regulation of phosphoenolpyruvate carboxykinase and insulin-like growth factor-binding protein-1 gene expression by insulin. The role of winged helix/forkhead proteins.

Robert K. Hall, Tomoyuki Yamasaki, Tomas Kucera, Mary Waltner-Law, Richard O’Brien, and Daryl K. Granner

Page 30171, Fig. 2: The top part of the figure should appear as follows.

![Corrected Figure 2](image)

The data presented in the bottom part of the figure reflect the results obtained with the mutations indicated above. This change does not affect the interpretation or conclusions of the paper.

Phosphorylation of tau is regulated by PKN.

Taizo Taniguchi, Toshio Kawamata, Hideyuki Mukai, Hiroshi Hasegawa, Takayuki Isagawa, Minoru Yasuda, Takeshi Hashimoto, Akira Terashima, Masamichi Nakai, Hiroshi Mori, Yoshitaka Ono, and Chikako Tanaka

Hiroshi Mori was inadvertently omitted from the author list. The corrected list is shown above. He is currently affiliated with the Department of Neuroscience, Osaka City University Medical School.

We suggest that subscribers photocopy these corrections and insert the photocopies at the appropriate places where the article to be corrected originally appeared. Authors are urged to introduce these corrections into any reprints they distribute. Secondary (abstract) services are urged to carry notice of these corrections as prominently as they carried the original abstracts.
